The **Quotes** module can be used directly within the Nesting module or from the Partner/Aspan main environment.

Once you have entered the default parameters will be setup through a dedicated page, it will be possible to customize the document that will be subseqentelly printed with the Customer's data.

Using the Quotes module within the Nesting environment, some procedures are automated.

At the end of the processing it is possible decide whether to print or save the document obtained.
